Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claim 1 is the limitation of heat-application and transporting means for heating and transporting the thermosensitive sheet, control means for controlling the heat-application and transporting means to heat a portion of the adhesive layer and to transport the sheet while simultaneously controlling the printing means to print on a portion of the printable layer of the sheet disposed opposite to and generally confronting the portion of the adhesive layer, in combination with the other claimed structure.

The primary reason for the allowance of claim 10 is the limitation of a heat-application and transporting member for heating the adhesive layer and for transporting the sheet, printing means for printing on a second surface of the sheet while the adhesive layer is simultaneously heated, pressure-application means for bringing the printing means into pressure contact with the heat-application and transporting member with the sheet disposed therebetween, in combination with the other claimed structure.

The primary reason for the allowance of claim 17 is the limitation of printing means for printing on the printable surface of the sheet, a heat-application and transporting member disposed generally opposite to and confronting the printing means with the sheet disposed therebetween for heating the adhesive layer of the sheet and for transporting the sheet during a printing operation, in combination with the other claimed structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
